# OUTDOOR POWER SHOWER

## FULL KIT 20L

This portable outdoor camping shower provides a powerful 4.5L/minute flow rate, meaning you can get that clean feeling almost anywhere. Safe to use with both cold and hot water (10-50 °C), the Outdoor Power Shower is an invaluable addition to your outdoor accessories.

The shower head can attach to any flat surface with the provided suction cup and hook, allowing you to hang it over your head or use it to wash cooking equipment, muddy boots, pets, bikes and much more.

Our Outdoor Power Shower is compatible with any device that provides a 12V power supply, e.g. a power pack or vehicle. The shower lid can also be removed and replaced with the conventional water carrier lid and integrated faucet tap, allowing the water carrier to convert back into a standard sealed unit.

Shower attachment is compatible with our Heavy Duty Water Carriers (10L/15L/20L).

### FEATURES:

- Features a 20L Heavy Duty Water Carrier
- Instantly converts our Heavy Duty Water Carrier into a powerful, portable shower
- Safe to use with hot water up to 50 °C
- Suction cup with hook allows you to hang it over your head
- Tilt the shower head to stop the water flow
- Perfect for camping trips, fishing trips, and other outdoor stayovers
- Easy and quick to assemble and operate
- Powered by any device that supports 12V
- Constructed from rugged and durable materials, perfect for outdoor pursuits
- Fully waterproof IP67 electronic housing
